Nature Perfected Composed of 93% natural quartz, one of nature's strongest minerals, Caesarstone is resistant to stains, scratches, most household chemicals and moderate heat. Our firm dedication to quality has earned us ISO 9001 certification.

High Style, Low Maintenance Caesarstone never needs sealing, and its hard, nonporous surface makes cleaning simple. In most cases, soap and water or a mild detergent are all that are required to keep your countertop looking like new.

Colors That Captivate Caesarstone's innovative development team continually creates breakthrough color and quartz designs that influence trends and inspire creative applications.

Edge Profiles The unique properties and durability of Caesarstone quartz surfaces allow for a wide range of edge profile design options.

Look and Feel Caesarstone quartz surfaces retain the cool, tactile qualities of natural stone with aggregates ranging from fine to coarse-grained color blends for varied visual texture. Three finishes expand the design possibilities even further: polished, honed (matte) and textured.

Environment First From investing in recycling technologies in our manufacturing plants to embracing environmentally sensitive suppliers, Caesarstone seeks to protect both the well-being of our customers and our environment.

Residential Lifetime* Warranty The first of its kind, covering your surface for as long as you own your home.

Find Out More To obtain further information about Caesarstone quartz surfaces, order samples and find an authorized dealer near you, please visit our website at www.caesarstoneus.com.

It's a place where you can be yourself, express who you are.

*Some restrictions apply. Copies of our Residential Lifetime Warranty are available on our website.
